## Why The Melaphone Defender?

Installed in multiple UK surgeries, see the list of reasons below as to why you need **The Melaphone® Defender** to protect you, your staff and clients.

1. No air transmission through the speech unit at all..100% Certified
2. Total protection for all your front public facing staff
3. No wires - No running costs
4. Easy to install with just 2 screws
5. Melaphone - Tried and tested for over 50 years
6. Certified to ISO 14644-1 Class 5
7. Manufactured in the UK, supporting UK businesses
8. Screens available at 2 different heights with single Melaphone
9. Screens can be customised to fit your particular reception desk with double Melaphone units.

What our customers have been saying.

*"The team are very impressed with the screens" Job ref 068124*

*"What a marvelous job, they were very helpful & we will recommend you to neighbouring surgeries" Job ref 068182*

*"Our screens were delivered last week. We are very happy with them" Job ref 068142*

## How to order and install

(Melaphone's can be ordered separately if needed)

**It's easy** - Email us photos of your desk with dimensions such as length, width and height to ensure your Melaphone® Defender screen is specifically configured for your reception-desk. We will do the rest and work out what you need, plan it and send a quote to you. If you are unsure of any element or need some assistance, please call us on 01359 233191 for further advice. We'll be very happy to assist. We can also install at extra cost.

**The Defender** screen is made from high quality strong Perspex™ acrylic or PETG and can be easily disinfected with IPA wipes on a daily basis with no detrimental effect. It's supplied assembled with a closed position indicator, vinyl graphics & 2 off stainless steel feet brackets to secure your screen to the desk by drilling through the bracket holes. These screens are designed as a permanent high quality screening solution.

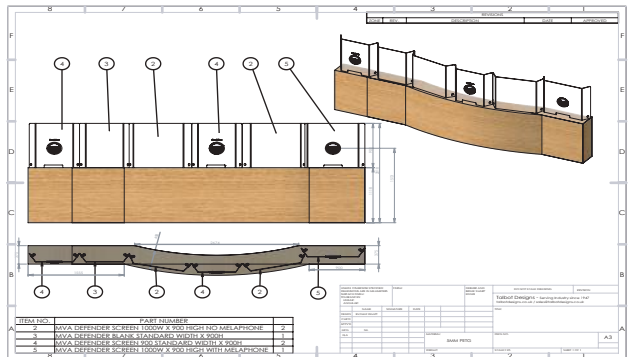

### Standard sizes are:

**To fit desk height up to 120cm, order Single LOW Desk (MVALD1) £295+VAT**  
80cm wide x 90cm H with 20cm angled returns. Overall width 80cm (Includes delivery)

**To fit desk height over 120cm, order Single HIGH Desk (MVAHD1) £285+VAT**  
80cm wide x 65cm H with 20cm angled returns. Overall width 80cm (Includes delivery)

Rigorously tested to international clean room standards, ISO14644-1 Class 5, the Melaphone speech unit achieved the above standard with ease.

The Melaphone speech unit can be found in laboratories all over the world for companies such as GSK in countries as far field as Australia, Canada, India and Mexico.

melaphone

Originally developed for British Rail, Melaphone was soon recognised as a very effective barrier against all airborne pathogens and adopted by the clean room industry as a reliable cost effective front line defence in protecting their staff against infection transmission.

Now available for general use within the medical industry, your staff can enjoy the same levels of protection that your lab colleagues do
